Stockand so he was in a dilemma. But he squared himself for the Dr. James A. Draper, Wilmington;

responsibility, and, says he: "Well, now, my friend, I will tell you about that, for it is a fair question. Of course it is. Well, you see, my grandfather came from Scotland, and you know that over in Scotland everybody is Presbyte-rian." Here he paused to note the effect, but saw no sign of sympathy with his grandpa. "But my grandmother came from England, and over there everybody

He paused again, and the old man marked another mark in the sand and spit his tobacco away off. "But my father was born in this country in a Methodist settlement, and so he grew up a Methodist." say with so m Still no sign of approval from the take a drink." old man, as Vance took his last shot and said: "But my good old mother was a Baptist, and it's my drop. (Who would have expected opinion that a man has got to go under the water to get to heaven." The old man walked up, and taking him by the hand, said, "Weil, you are all right, Mr. Vance," and then turning to the crowd, said, "Boys, he'll do, and you may vote on the patriarch of Delaware pilots. for him. I thought be looked like And the old man a Baptist." slowly drew a flask from his coat tail and handed it to Vance to seal

Relation of Agriculture in the South to Manufactures. - Baltimore Manufacturing Record.

Notwithstanding the many advantages of the South for Agricult ure, advantages that are admittedly superior in many respects to those of the greater part of the balance of this country, is an undeniable fact that the Southern farmers, as a class labor under very serious disadvantages. Their lands will produce a great variety of products besides cotton, and in these smaller crops as well as in dairying, the poultry yard, &c., there ought to be much profit; but unfortunately it is not o, except to a limited extent. Unless near some city or industrial animals were widely distributed through the Western States. It is similar enterprises meet with rather poor reward as they find no consumers for their goods. With them too few consumers. The vast possibilities of the South

all others having cattle affected with disease of the lungs, will at once there are too many producers andcommunicate with Dr. D. E. Salmon, chief of the Bureau of Animal Industry, care of the Breeders' Gafor fruit and vegetable production, dairying, &c., are thus almost zette, Chicago, and clearly state the conditions of their herds and the wholly, we may say, undeveloped. We have seen the finest kind of fruit left to rot on the ground or be fed to hogs. Why? Simply because everybody in the neighborhood had all that they needed and no market could be found for it exsymptoms of disease. The attention of owners of cattle and railroad and other transportation companies is called to section 7 of the act establishing the Bureau of Animal Industry, which makes it a misdemeanor punishable by a fine of not cept at a long distance and at high less than \$100 nor more than \$500, eights. And so it is with other of or by imprisonment of not more things than the staple crops of colfon, wheat and corn, and hence, willing or unwilling, Southern far-mers must coaline their attention to infectious or communicable disease, these. —Columbia Sendinel.

The Missours Syram Wannes has done all the washing the my laundry for the past twelve snouths, washing from 150 to 150 pieces a day, doing the work of from three to five wash-women.—Lewis Hord, prop. Castral-Ringo Hotel, Mexico, Mo.

The Missiophi Syram Washen has been in use in my family for savan months, and too much praise cannot be given it as a labor-naving insention. Before using it, wash-day was the freed of the family, but now the children cry to do the washing, as a child twelve years old can
